ABSTRACT

This activity is a one-day event organized in the college campus itself. It was initiated with a motto that it would provide a refreshing break to the students as well as the faculties in their busy schedule. We have given our level best efforts in this project to make it a successful one. It would even inspire other students to organize such events, which would help them to flourish in all the fields along with academics. We have organized this event for 4 years in our college and which inspired us to continue it for the 5thYear.
